## SERIES 525 TOWING WINCH

**JonRie InterTech introduces its NEW Series 525 Hydraulic Towing Winch. The Winch boasts a line pull of 150,000lbs. and a line speed of 30 FPM. The winch also features an independent drive level wind so the speed can be adjusted to hold the cable to the flange for an even spool. Also featured is an integral H-Bitt to reduce the countering loads on the level wind and can also be used for towing. The Series 525 is designed to handle 2 1/2" wire.**
